

Spiral Journey of the Great Turning

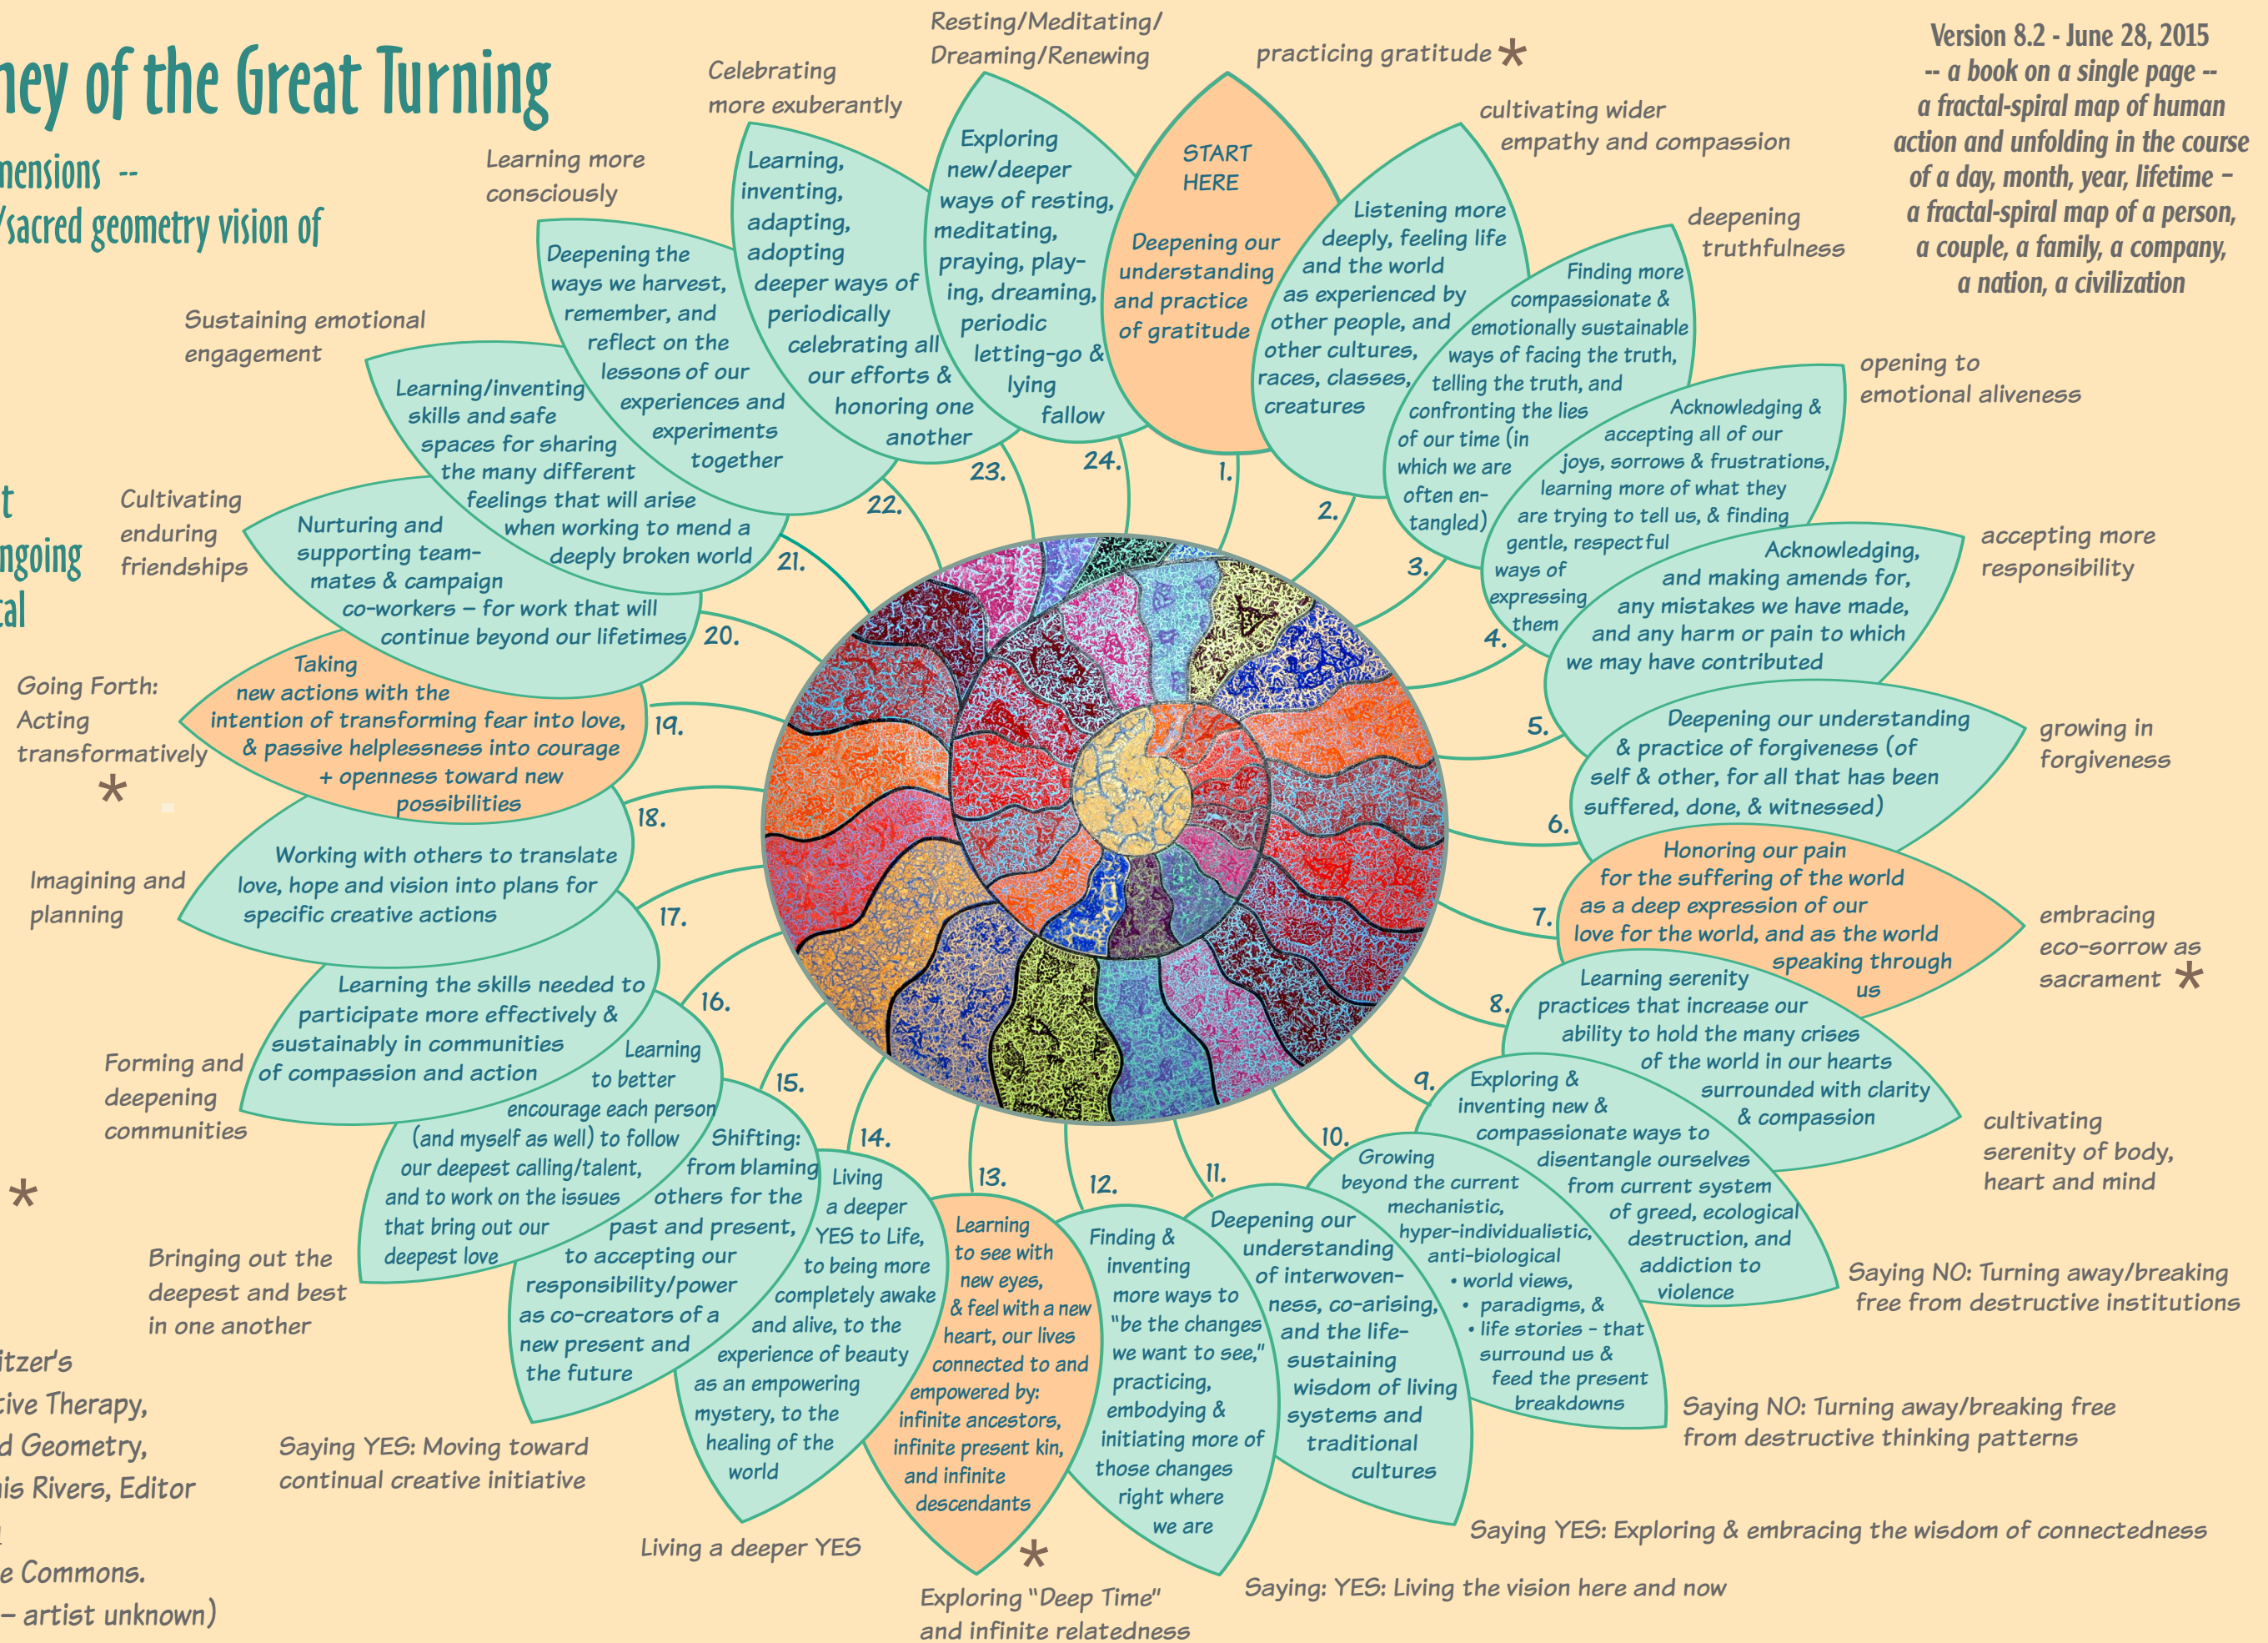

24 creative steps/dimensions -- a fractal-complexity/sacred geometry vision of

- ecological activism,
- creative resilience,
- compassionate resistance, and
- personal development in the context of ongoing ecological & political breakdowns

Each step supports all the others. Which steps do you see as especially related to particular other steps?

Drawing inspiration from Joanna Macy's "Work That Reconnects," * 12-step programs, the life of St. Francis, Gandhi and M. L. King's "Satyagraha/Nonviolence," Albert Schweitzer's "Reverence for Life," Narrative Therapy, Appreciative Inquiry, Sacred Geometry, and Systems Theory. Dennis Rivers, Editor www.univ-great-turning.org
